LAKE SHASTA FISHING

DECEMBER THROUGH FEBRUARY: Good for German browns and crappie. Some catfish and bass are caught at this time.

MARCH THROUGH MAY: Excellent for German browns, kamloop and rainbows; bass fishing good for large and small mouths; some catfish and crappie.

JUNE THROUGH AUGUST: Best fishing is for large and small mouth bass, catfish and crappie; some trout, but they are deep.

SEPTEMBER THROUGH NOVEMBER: Very good for trout, especially as water cools; some bass, catfish and crappie are caught at this time.

AIRPORT INFORMATION

Redding Municipal Airport - 30 miles from Bridge Bay.

Transportation is available through the resort at no charge. Call (530) 275-3021.

DIRECTIONS TO DIGGER BAY MARINA

From Los Angeles:

1. I-5 North to "Shasta Lake City-Shasta Dam Blvd." exit.
2. Travel two miles west on Shasta Dam Blvd.
3. Go under the railroad tracks.
4. Approximately 3/4 of a mile you will see a sign "Digger Bay Marina next right."
5. Turn right onto "Shasta Park Drive." You will see a sign

stating "Digger Bay Marina." Continue on this road for three miles. This is a very winding road.

6. Digger Bay is at the top of the hill. If towing a trailer, turn around and back in towards the main dock. There is no room to turn around at the bottom of the ramp.
7. Office and check-in is located 100 yards down the dock in the marina store.

DIRECTIONS TO BRIDGE BAY RESORT

From Eugene, Portland or Seattle:

1. I-5 South to Bridge Bay Road exit.
2. Follow road to main office for check-in.

From Reno, Salt Lake City or Las Vegas:

1. 80 Freeway West to I-5 Freeway North.
2. Follow I-5 North to Bridge Bay Road exit.
3. Follow road to main office for check-in.

From Los Angeles:

1. I-5 North to Bridge Bay Road exit.
2. Follow road to main office for check-in.

From Phoenix:

1. 10 Freeway West to I-5 Freeway North.
2. I-5 North to Bridge Bay Resort exit.
3. Follow road to main office for check-in.

THINGS TO DO LAKE SHASTA

THE LAKE

In shoreline miles, Lake Shasta is by far the largest lake in California. The surrounding mountains and towering evergreens combine with clear pure water to make a setting for fun and relaxation.

Lake Shasta is formed by four rivers—the Sacramento, McCloud, Squaw and Pit. Their inflow, contained by Shasta Dam, created a many-armed lake with hundreds of coves and bays as the waters slowly moved up the contours of the surrounding mountains.

INTERESTING SIGHTS

Shasta Dam is an engineering marvel. Over 602 feet high, it contains enough concrete to build a walk three feet wide around the entire world. Its spillway is three times the height of Niagara Falls and any one of its five diversion pipes is large enough to drive a Greyhound bus through.

Shasta Caverns is another site to tour while on Lake Shasta. Approached by boat or by car and a short ferry ride, the two-hour tour begins with a bus ride along a mountainside 200 feet above the lake. From that point, one can enter the caverns to view the natural splendor of the stalactite and stalagmite formations. Tours are conducted daily.

Driving north by car, visits can be made to the perpetually snowcapped Mount Shasta, which rises over 14,000 feet above sea level, and Castle Crags, a series of ragged granite peaks that rise abruptly above the surrounding evergreens. Driving southeast of Lake Shasta into Hat Creek country, you will come upon L. Burney Falls, a particularly picturesque waterfall. The adjacent park has a nice picnic area. A few miles from the fall, at the intersection of Highway 89 and 44, lies an interesting relic of past volcanic action known as the Subway Caves. As the outside lava cooled, new lava forced a pathway through the old, creating a series of tunnels called lava tubes. The main tube is approximately 1,300 feet long and may be explored, but take a good flashlight and a warm jacket as it is very dark and the temperature is a perpetual 46 degrees.

To the west of the lake, a few miles drive on Highway 299 will take you to French Gulch, a quaint little town whose single main street clings to the side of a rugged mountain bordering French Gulch Creek. In the 19th century the town was a boisterous, bawdy mining camp and the tailings still piled in the creek give evidence of its thriving past.

OTHER SPORTS

Gold Hills Country Club has an 18-hole golf course that is open to the public, and there are four other facilities in the vicinity with 9-hole courses.

Tennis courts are available at South City Park, Shasta College and several local high schools. The school courts, however, have restricted hours. All courts are asphalt surfaced and lighted.

The surrounding area is a mecca for hikers. Trails range from those suited for short leisurely walks, to trails that will challenge a professional. A few of the more popular areas include the scenic trails around Lake Shasta, Whiskeytown Lake, Mount Lassen, Castle Crags and the Trinity Alps.

WILDLIFE

Wildlife abounds on Shasta. Families of deer can be seen crossing the lake or down by the water's edge. Houseboaters may even be approached for a handout. Shasta is also a nesting spot for the bald eagle, otters, foxes and osprey. Sometimes, even a bear can be spotted.
